Dear Mr. Menge,

Thank you so much for sending these pictures of your work, both recent & old. Unfortunately, we do not find anything here that we feel we have to have. I still like the 'public garden' in the book that you sent us years ago as my favorite - especially because there are flies on the figures! That work must have been sold years ago.

Anyrate, Thank you again & also for your very kind invitation to your atelier.

Best personal regards,

Joel Richmon,
